About Kin Mining NL

Kin Mining (ASX: KIN) is an emerging gold development company with a significant tenement portfolio in the Eastern Goldfields of Western Australia. Through exploration success and selective acquisition, the Company aims to become a profitable, high-margin Australian gold producer. The immediate focus of the Company is completing an updated pre-feasibility study at its flagship Leonora Gold Project (100%), containing a JORC resource of 722koz, by the end of the calendar year.

Kin's exploration is targeting near-mine and prospects within the transport corridor linking further discovery to a proposed independent processing plant located at the Leonora Gold Project. Kin aims to fund its regional exploration at its extensive and highly prospective project portfolio with an ongoing focus of limiting dilution.
