## **KIN APPOINTS HIGHLY EXPERIENCED GEOLOGIST LEAH MOORE AS EXPLORATION MANAGER TO CONTINUE KIN'S EXPLORATION DRIVE**

***Former senior Bellevue Gold and CSA Global explorationist to drive the next phase of resource growth at the 1.4Moz Cardinia Gold Project***

**Kin Mining NL** (ASX: KIN or “the Company”) is pleased to announce the appointment of experienced geologist Leah Moore as Exploration Manager, effective 29 September 2022.

Ms Moore is a geologist with extensive exploration experience in the WA Goldfields. Her career has included senior roles with some of Australia’s premier gold mining companies and gold mining districts including Bellevue Gold Limited, CSA Global, Gold Fields and Barrick Gold, primarily in the Leonora and Laverton districts.

She has a successful track record of increasing life-of-mine gold resources through exploration success and brings a wealth of knowledge and experience to the Kin Mining team.

Ms Moore has 15 years of primarily gold-based mineral exploration experience on top of a Bachelor of Science (Geology) with Honours from UWA and a Graduate Certificate in Mineral Economics from Curtin.

Kin is keen to draw on Leah’s experience in understanding master geological models (including structures, lithology and oxidation) and growing project resource balances in advancing the next phase of growth at the Cardinia Gold Project.

Ms Moore succeeds Mr Glenn Grayson, who is leaving Kin Mining to take on another role in the Western Australian resources industry. Mr Grayson has been involved in the planning and execution of exploration and development programs across Kin’s Cardinia Gold Project assets over the last four-and-a-half years, culminating in the latest upgrade to the CGP Mineral Resource to 1.4Moz of gold. This MRE represents an 80% increase (625koz) from the initial MRE that Glenn prepared when he first joined Kin.

Kin Mining Managing Director, Andrew Munckton, said: *“We are delighted to welcome Leah to the Kin Mining team and we look forward to drawing on her considerable experience across the WA Goldfields in helping oversee this next exciting phase of growth as we embark on our Phase 6 drilling program. I would also like to take this opportunity to convey our sincerest thanks to Glenn for his strong leadership and geological insights, which have helped us double the resource base at Cardinia. We wish Glenn all the best in his new appointment.”*

**ABOUT KIN MINING NL**

Kin Mining NL (ASX: KIN) is a West Australian based gold development and exploration company. Kin’s key focus is its 100% owned Cardinia Gold Project (CGP) located in the highly prospective North-Eastern Goldfields region of Western Australia. The CGP has a 1.4Moz gold Mineral Resource defined in both oxide and deeper primary mineralisation with considerable potential to grow this resource with further drilling.

Kin’s exploration effort is the systematic program of exploration across the Cardinia Mining Centre that seeks to advance a number of targets in parallel while developing a pipeline of exploration targets for ongoing Mineral Resource expansion.
